The creation of the PID was initiated by a petition (the “Creation Petition”) submitted by property owners within the PID boundaries in compliance with the requirements of Section 372.005 of the Act.

2. Boundaries

The boundaries of the PID are as indicated in Exhibit A and Exhibit B.

3. Administration of the District

Administration of the District is the responsibility of the City Council of the City of Tomball, Texas but to the extent allowed by law, the City may contract with a private sector company to carry out all or part of the City responsibilities as well as day-to-day operations and administration of the District.

4. Public Improvements

Additionally, the Plan will be reviewed for the purpose of establishing the installments for assessments based upon the costs for Public Improvements and the financial needs of the District.

6. Conveyance of Improvements to the City

Upon completion of the improvements, and final inspection and acceptance of the Public Improvements by the City, the Developers will convey all rights to the improvements to the City or homeowner's association as applicable, subject to the Developer's rights of reimbursement described in the Development Agreement executed between the Developer and the City.

7. Authorized Improvements

The area within the PID that is covered by this Service and Assessment Plan will be developed as single family residential. This Plan designates the Public Improvements required for the growth and

development of the land within the PID. The goal of this Plan is to provide sufficient certainty for the owners of land within the PID to proceed with the financing and construction of the necessary Public Improvements, while allowing for sufficient flexibility to meet the needs of the PID over the life of the development of residential properties within the PID.

The construction of the Public Improvements authorized herein began in calendar year 2012. The actual costs of the Public Improvements will be determined by an independent accountant report of the developer's costs.

8. Advance Financing by Developer

The Developer will advance the funds for construction of the Public Improvements and will be entitled to repayment pursuant to the Development Agreement executed between the City and the Developer.

9. Apportionment of Costs

Payment of assessments, if any, on property owned by exempt jurisdictions other than the City shall be established by contract.

10. Levy of Assessments

The assessment year shall be concurrent with the City's tax year. The assessments against property may be paid in annual installments based on an amortization of not more than fifteen (15) years plus the period between the effective date of the assessment ordinance and the date of the first installment. The interest rate on financed assessments is five and ¼ percent (5.25%) per annum.

The assessments shall be based upon the actual cost of the Public Improvements plus those related costs as deemed reimbursable by the City. The cost of the Public Improvements will consist of the costs to construct detention, storm sewers, water lines, sanitary sewers, gas, open space and amenities, erosion control, and paving for each development phase, related professional design and engineering fees, administrative and legal services and interest payable to the Developer pursuant to the Development Agreement.

A. Reserve at Spring Lake

The Plan estimates the following assessments for residential properties in the PID according to the cost of the Public Improvements.
